PROFILE SUMMARY

Motivated BCA student specializing in Artificial Intelligence at St. Claret College, Bengaluru. Strong interest in technology, artificial intelligence, and software development. Completed academic projects related to AI decision-making systems and object oriented programming. Eager to gain practical experience and develop strong technical and analytical skills.

EDUCATION

BACHELOR OF COMPUTER APPLICATIONS (BCA) - ARTIFICIAL INTELLIGENCE ST. CLARET COLLEGE, BENGALURU, KARNATAKA, INDIA

SKILLS

Python
Java
C++
Artificial Intelligence Basics
Object-Oriented Programming (OOP)
Problem Solving
AI Tools (ChatGPT)

LANGUAGES

- English
- Kannada
- Tamil
- Hindi

PROJECTS

Autonomous Agents and Robotics Decision Making: Research activity on how autonomous agents and robots use artificial intelligence to analyze data and make decisions without human intervention.

Evolution of Storage Devices: Study of data storage technologies from early storage systems to modem solutions like hard drives, SSDs, and cloud storage.

Object Oriented Programming Concepts: Research activity on encapsulation, inheritance, polymorphism, and abstraction implemented using Java.

HOW I USE AI

Used AI tools such as ChatGPT to improve written content, organize portfolio sections, and refine academic project descriptions in a clear and professional way.
